"IN 1974 YOU READ:"

220 Articles by 116 writers on 98 different topics. 8 of these writers are regular departmental contributors. Text pages, exclusive of all advertising, indexes, covers and news are estimated at 464 pages, which is the equivalent of 928 standard text book pages on a word count basis.

Most police book publishers charge

over \$12. for a 400 page textbook.

LAW AND ORDER gave its readers the value of two textbooks on police science, methods, and philosophy for a subscription cost of \$7.00 — the most up-to-date information ever published. We offered real value — and hope you liked and used it!
